

TESTIMONIAL

We have been dealing with Event Makers in Poland for several events during the last 3 years. Some smaller events but also a major one, being our Sales and Marketing Annual Conference in 2006.

This annual conference was held in Budapest and was a very successful one. Event Makers find a perfect location for this meeting. Together 120 participants coming from several countries in Europe were very pleased by the organization of this event. The team building activity was very well chosen and remains a very nice experience for everyone. The choice of the different restaurants was excellent.

The fact that we were dealing from Belgium with a Polish agency for an event in Budapest was a challenge, but a great multi-cultural experience.

We highly recommend Event Makers, which we believe is a very dynamic team, with creative ideas and very customer focused.
